Darshan Dalwadi

Senior Software Engineer  
 Ahmedabad, Gujarat.

Key Skills

- ❖ **Core Programming Language** – Java, Angular.
- ❖ **JAVA Frameworks** – Spring MVC, Spring Boot, Hibernate, Data JPA (Including Microservice architecture).
- ❖ **Web Services** – REST API using Spring Boot, and JAX-RS.
- ❖ **API Documentation** – OpenAPI (Swagger).
- ❖ **Front-end Technologies** – HTML, Bootstrap, Tailwind CSS, JavaScript.
- ❖ **Databases** – MySQL, PostgreSQL, MongoDB, Solr (For Search functionality).
- ❖ **Knows about** – Node JS, Flutter.
- ❖ **Platform and Tools** – Atlassian, Jira, Postman, IntelliJ Idea, VS Code, SourceTree.
- ❖ **DevOps** – Git, Jira, Maven, Gradle, Basics of AWS, Kafka, and Docker.
- ❖ **Caching Mechanism** – Redis, Membase.
- ❖ **Used to With Operating Systems** – Windows, Ubuntu.
- ❖ **Knowledge of Hardware Peripherals and Networking**
  - Assembling & disassembling desktops and laptops.
  - OS Installation (Including Windows, Linux - Ubuntu Series, and Others).

Work Experience

|                                                                                                                                                                |                          |                                           |
|----------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------------------|-------------------------------------------|
| <b>IQR Technosouls Pvt. Ltd., Ahmedabad</b><br>Currently contributing to software development and architecture design as a Senior Software Engineer.           | Senior Software Engineer | March 2024 – Present<br>(2 yrs 2 Months)  |
| <b>Asite Solutions, Ahmedabad</b><br>Maintenance of enterprise-level applications using Rest APIs, and Microservices.                                          | Software Developer       | May 2021 – Dec 2023<br>(2 yrs 8 Months)   |
| <b>Techforce Global, Ahmedabad</b><br>Worked on backend development using Core Java and JavaEE, contributing to multiple client projects.                      | Java Developer           | July 2018 – May 2021<br>(2 yrs 11 Months) |
| <b>Amnex Infotechnologies, Ahmedabad</b><br>Gained hands-on experience on Java, and Spring framework, along with Apache Kafka as part of the development team. | Software Intern          | College Internship<br>(4 Months)          |

## Projects

### Adoddle – Civil Construction Product

A large-scale construction domain platform enabling construction companies and agencies to collaboratively manage project sites and supply chains. The system provides easy access to project progress, defect tracking, and reporting.

- Built using Spring, Spring Boot REST APIs, Solr for search, Membase, and MS SQL, following Agile methodology with Git and Jira for collaboration.

---

### APEXX – FinTech Payment Middleware

A microservices-based payment orchestration system integrating multiple global payment gateways. Key capabilities include merchant payments, end-to-end transaction updates, third-party API integrations, and complete request-response logging.

- Developed using Spring MVC, Hibernate, Microservices architecture, REST APIs, Swagger/Redoc, MySQL, and JUnit.

---

### TIME-TAP – Meeting Scheduling & Calendar Booking System

A scheduling platform for meetings and appointments with features like recurring events, reminders via email/SMS, payment acceptance, invoice generation, and third-party calendar sync (Google, Outlook, custom domains).

- Built using Spring MVC, Hibernate, REST APIs, Redis for caching, MySQL, Angular.

---

### AMS – Asset Management System

An internal asset tracking solution used by infrastructure teams to manage asset categories, assignments, and inventory. Responsibilities included requirement gathering, documentation, stakeholder discussions, UI development in Angular, and client demos.

- Developed using Node.js, Angular, MySQL, jQuery, and Bootstrap.

## Education Summary

| Degree                               | School / College                                             | Board/University     | Passing Year | ( % / CGPA          |
|--------------------------------------|--------------------------------------------------------------|----------------------|--------------|---------------------|
| <b>M.C.A.</b><br>(Post Graduation)   | School Of Computer Studies,<br>Commerce Six Road, Ahmedabad. | Ahmedabad University | 2018         | 86%                 |
| <b>B.C.A.</b><br>(Graduation Degree) | Lokmanya College Of Computer<br>Application, Ahmedabad.      | Gujarat University   | 2016         | 7.26 / 10<br>(73 %) |
